singe

**Entoure :**

- **en rouge** les animaux qui viennent des régions chaudes,
- **en bleu** les animaux qui viennent des régions froides.

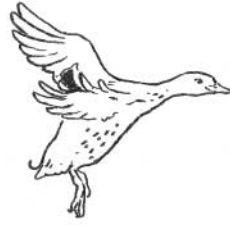

# Retenir

Certains animaux vivent dans les régions chaudes et d'autres dans les régions froides. D'autres encore ne supportent pas le froid et partent en hiver vers les régions chaudes. Ce sont des animaux migrateurs.

hirondelle

canard sauvage

cigogne

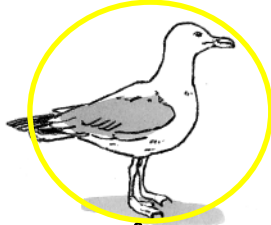

# Marin ou montagnard ?

# Aller plus loin

Voici huit animaux de nos régions. **Entoure-les :**
